

About NAET (Nambudripad's Allergy Elimination Technique)

Linda,

1. It is my understanding that NAET is based solidly in pantheistic spiritualism!
2. One might say it can't be from the occult because it works. I ask the question what power makes it work?
This is the ultimate question to ask. God heals and the devil can heal, not fake healing but real healing.
3. We need to look first at two points, chiropractic, then *applied kinesiology*. (muscle testing)
 - a. chiropractic came from the occult. See the attachments
 - b. applied kinesiology came through chiropractic (Dr. good heart) via spirit world. see below.

Ankerberg, John; Weldon, John; *Can You Trust Your Doctor?* pp. 157-158

Willis, Richard J.B.; *Holistic Health Holistic Hoax? An Expose of New*

***Age Therapies* pp. 123-129**

4. The originator *and* propagators of NAET have a pantheistic world view and everything is interpreted or explained via that concept even if there is no acceptance of the idea by the scientific world. (See chapter 4 in *Exposing Spiritualistic Practices in Healing*.) Pantheism is an extension of the lie told in the Garden of Eden "you will become wise like God, become god." A false story of creation became the foundation for propagating this lie. (see chapter 4 to understand) If life came from blending a two-part energy, then disorder in health comes from unbalanced energy. Balancing energy becomes the foundation of healing techniques. The Hindus explain this concept of universal energy flowing through the body one way, the Chinese another and chiropractic another. It is all the same and from the same source.
5. Ellen White spoke of this presumed energy as "essence" and "animal magnetism." Dr. John Kellogg spoke of it as "presence." White called it spiritualism, and said if one continued in its study the devil would soon be able to talk to one.
6. All of these concepts are incompatible with known science, the science that follows the physical laws of God and that can be used to build computers, build and send rockets to the moon etc.

Edwin Noyes

In a message dated 2/24/2014 3:07:48 P.M. Pacific Standard Time, Linda writes:

Hello Dr. Noyes,

I spoke with you this morning about this technique that my daughter is planning to go to tomorrow. Here is the website if you are interested in learning more about it. It says right on there that it is based on oriental medicine.
